## About us :

Established in 2011, we, Disha Industries, have emerged as reputed manufacturer of Industrial Sheds, Warehouse mezzanine, Prefabricated Buildings & Shed fabrication services .Through world-class manufacturing practices and a strong culture of excellence, Disha Industries & Roofing Solution Pvt. Ltd. has become the most dominant player in the PEB industry and specialised in corrosion resistant sturdy construction assuring durability & easy installation.

Our organization is backed by a team of experienced professionals. Our manufacturing units are empowered with advanced technology to deliver best quality at par with set industry standards. We are committed to deliver a products with consistent quality, cost effective prices and time lined delivery.

We strictly follow the quality control system that ensures customers receive products free from defects and meet their needs. Right from the procurement of raw material, production process and up to the delivery and installation of the final product, continuous monitoring and material testing is been implemented.

We have State of the art technology and design setup for manufacturing, supply & erection of pre-engineered steel buildings for factories, warehouse, showrooms, sports stadiums, exhibition halls, aircraft hangers, Multi-storeyed Steel buildings etc.

### Quality Assurance

We strictly follow the quality control policies of our organisation on every step.

Stringently tested raw metals.

Monitored production process.

Examining the products on the following 3 main parameters :  
Sturdiness, Corrosion resistance & Durability.

### Infrastructure & Facilities

For the production of our wide range of products, we have set up an ultra-modern and well-equipped infrastructure facility. We have divided our infrastructure into several divisions like manufacturing, quality testing, R & D and warehousing & packaging to streamline all our business operations. All the divisions are managed by their respective professionals who are highly qualified and well versed in the respective area. Comprising both modern machines and proficient professionals, our unit enables us in meeting customized demands of the clients. These installed machines and tools are checked, repaired and updated time to time.

### Research and Development

In order to be ahead of our counterparts, we have set up a well-equipped research & development unit. For the management of this unit, we have appointed well qualified and experienced researchers. These researchers keep themselves busy in research works and come with their outputs that suggest us to use the available resources in a better way. It is their in-depth researches that make us able to add new features in our product range and to improve their quality. Their depth market researches advise us to update our machines and tools for hassle free production.

## Why us :

By manufacturing optimum quality products, we have earned a strong reputation in the market. We work hard to offer quality products to the clients within the stated time frame. Following are some of the reasons behind our success :

- Team of qualified & experienced professionals
